

The EU Waste Electrical and Electronic Equipment (WEEE) Directive

The EU Waste Electrical and Electronic Equipment (WEEE) Directive requires all Member EU countries to maximise the separate collection, reuse and recycling of WEEE. The UK WEEE Regulations (derived from this Directive) applies to all Electrical and Electronic Equipment (EEE) placed on the market in the UK covered by the scope of these Regulations.

Under the UK WEEE Regulations, "Producers" are required to mark all relevant EEE with a "crossed-out wheelie bin" symbol to remind consumers not to discard WEEE in the domestic waste stream. Polypipe t/a Domus Ventilation encourages all its customers to make note of this symbol and avoid putting any WEEE in your domestic waste bin(s) or container(s).

Polypipe t/a Domus Ventilation supports the reuse and recycling of WEEE as there are several environmental benefits of doing so, such as: Reduction of raw material and energy usage, prevention of landfill, prevention of hazardous and/or toxic materials present in some WEEE contaminating the environment.

As a Producer under the UK WEEE Regulations, **Polypipe t/a Domus Ventilation** complies with its Producer Obligations by being registered as a Member of the WeeeCare Compliance Scheme and obtaining the WEEE Producer Registration Number – **WEE/DK4385SU**
